SUMMER 2021 2-15 AUGUST

“Take me in your village” initiative started in 2013 and is already active for a 7th year.

This is a very successful model that shows the collaboration between elderly people and youngsters. Elderly people from the local villages host young people in their homes and teach them the old Bulgarian traditions, crafts, culinary art, folklore. Young people, in turn, help them in their daily activities and bridging the gap between generations.
